

BASEJMP

R A P I D C U S T O M E N T E R P R I S E A P P L I C A T I O N S

A dramatic photograph of a space shuttle launch at night. The shuttle is positioned in the center, ascending vertically. It is surrounded by a massive, billowing cloud of white smoke and fire that fills the lower half of the frame. The background is a deep, dark blue-black, suggesting a clear night sky. The shuttle's structure, including the external tank and solid rocket boosters, is clearly visible against the bright light of the engines.

THE PLATFORM

The Basejump Platform enables ultra-rapid and cost-effective development-deployment and maintenance of custom enterprise applications.
